

### **Student Handout #3 (continued)**

1) Looking at the map, what parts of the world did not experience the development of agriculture during this time frame?

Why do think this might be so? What might be different about those regions?

2) Which crops were developed first?

3) Why do you think some crops grew in one place but not another? What factors might affect what plants grow where?

4) What crops do you think more useful or helpful to a growing village? Why?
